**Subject:** Microsoft Settlement

Dear Department of Justice,

I'd like to speak my opinion on the settlement. I share the views of Microsoft that a settlement is good for consumers, now more than ever before. This serves the public interests and consumers, and there is no need to prolong this litigation that benefits only a few wealthy competitors and stifles innovation.

The industry and the American economy wants a stable and healthy competition, not lawsuits. Thanks.

Sincerely,

Hai-Duc Le
